

## Managed IT Service Plans

# Total Care

FULL IT DEPT • CRITICAL SECURITY DEFENSE

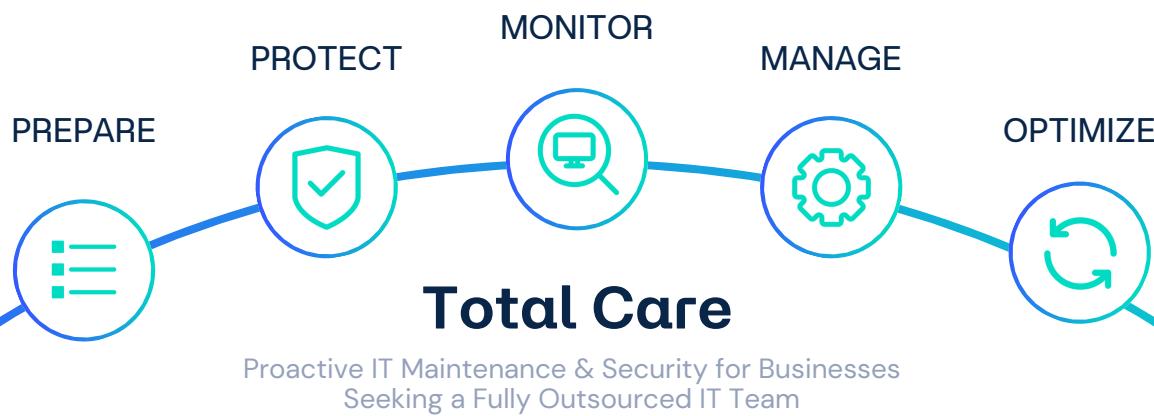

## Overview

NexusTek Total Care is a fully managed IT service plan that gives you multilayered cybersecurity, plus all IT services in the Support Care plan. In addition to proactive IT maintenance, this managed protection and response plan defends against and reacts to cyberattacks, providing expert support for those high-stakes moments. On top of 24/7/365 monitoring and alerting, you get managed DNS security, security awareness training, and external vulnerability scanning of the network edge per site every quarter.

## Business Value

NexusTek Total Care provides exceptional value by leveraging best-in-class technology, processes, and U.S.-based talent. This robust package protects your data and employees from cyber threats, keeps your IT systems maintained and running smoothly, and supports you to make smart, strategic IT choices that align with your business goals. A fully managed IT services plan, Total Care puts a full IT department at your fingertips, giving you more time to focus on building a successful business.
